Alireza Omidi

Curriculum Vitae

Tehran, Iran
✉ *aomidi@ce.sharif.edu*
alirezaomidi.github.io

Education

2018–Present **Artificial Intelligence M.Sc.**, *Sharif University of Technology*, Tehran, Iran, Current GPA: 3.5/4 .

2013–18 **Software Engineering B.Sc.**, *Isfahan University of Technology*, Isfahan, Iran, GPA: 3.28/4 .

2009–13 **Diploma of Mathematics**, *Ejei High School 1 (National Organization for Development of Exceptional Talents)*, Isfahan, Iran.

Interests

- **Machine Learning, Deep Learning**
- **Representation Learning**
- **Interpretable Machine Learning**
- **Meta Learning**
- **Computational Biology, Single Cell Analysis**
- **Natural Language Processing**

Publications

[1] Mohammad Sadegh Akhondzadeh, **Alireza Omidi**, Zeinab Maleki, Kevin Coombes, Amanda E Toland, and Amir Asiaee. Learning cancer progression network from mutation allele frequencies. In ***ICML Workshop on Computational Biology***. 2020.

Academic Experiences

2018–Present **Research Assistant**, *Sharifi Lab*, Sharif University of Technology.
- Working on "Finding Novel Translational Elements with Deep Learning" Under supervision of Prof. Ali Sharifi-Zarchi in collaboration with Prof. Hani Goodarzi (UCSF, US).
- Working on "Multiomic Single Cell Data Integration with Deep Learning" under supervision of Prof. Ali Sharifi-Zarch in collaboration with Prof. Fabian J. Theis (TUM, Germany).

2019–Present **Member**, *Bioinformatics And Computational Biology (BCB) group*, USERN.

2017–18 **Research Assistant**, *Maleki Lab*, Isfahan University of Technology.
- Worked on "Inferring Oncogenesis Graphs" under supervision of Dr. Amir Asiaee Taheri (OSU, US).
- Worked on "Clustering Kidney Cancer Gene Expression Data" under supervision of Prof. Zeinab Maleki.

2017 **Teacher of "Machine Learning with Python" course**, *Isfahan University of Technology*.

2016 **Summer Intern**, *School of Advanced Technologies in Medicine*, Isfahan University of Medical Sciences.
- Worked on "Microarray analysis on breast cancer".

2019 **Teacher Assistant**, *Sharif University of Technology*.
Course(s):
- Introduction to Bioinformatics (Fall 2019)
- Deep Learning (Fall 2020)
- Modern Information Retrieval (Fall 2020)

2014–17 **Teacher Assistant**, *Isfahan University of Technology*.
Courses:
- Introduction to Programming (Fall 2014, Fall 2015, Fall 2016)
- Advanced Programming (Spring 2016)
- Formal Languages & Automata Theory (Spring 2016, Spring 2017)
- Discrete Mathematics (Spring 2016)

Work Experiences

2020–Present **Data Scientist**, *Cafe Bazaar AI*, Tehran, Iran.
Cafe Bazaar is a leading consumer internet company in Iran, running multiple products such as the most popular smartphone application marketplace for Persian speaking countries, the most popular online marketplace of Iran, and a widespread used map & navigation application. Cafe Bazaar AI is a section of the company working on novel AI-based services. Cafe Bazaar is serving more than 39 million Persian speaking people around the globe. I work on these projects:

- **Automatic Speech Recognition**: We developed *Negar*, a novel Deep Neural Network based ASR service to recognize Persian speech.
- **Text to Speech**: We developed *Chatterbox*, a Deep Learning based TTS services to convert Persian text into speech.

Volunteer Experiences

2015–18 **Co-founder & Chair**, *ACM Student Chapter*, Isfahan University of Technology.
- Organized four annual ACM Collegiate Programming Contests - Local (2015–18)
- Organized two series of ACM-ICPC Preparation Class (2016, 2018)

2015–17 **Vice Chair (2016-17) & Core Member (2015-16)**, *Student Scientific Association of Computer Engineering*, Isfahan University of Technology.
- Organized the first "Data Mining Competition" of IUT in collaboration with Khabarfarsi.com (Spring 2017)
- Organized "Data Science" conference in collaboration with Khabarfarsi.com (Spring 2017)
- Organized "CAFE-GAP" conference in collaboration with Cafebazaar.ir (Winter 2017)
- Organized 1st "IUTFOSSCon", Free & Open Source Congress of IUT (Fall 2015)

2017–18 **Editorial**, *Faramatn Mag*, Isfahan University of Technology.
- Editorial of 10th & 11th issues of Faramatn (Hypertext) Magazine, a student magazine about computer science.

Honors & Awards

2018 **1st Place**, *National University Entrance Exam for M.Sc. Grade*, in Information Technology Engineering.

2018 **25th Place**, *National University Entrance Exam for M.Sc. Grade*, in Artificial Intelligence.

2016 **8th Place**, *41st Regional ACM-ICPC*, Tehran Site, Sharif University of Technology.

2015 **9th Place**, *40th Regional ACM-ICPC*, Tehran Site, Sharif University of Technology.

2014 **19th Place**, *39th Regional ACM-ICPC*, Tehran Site, Sharif University of Technology.

2017 **9th Place**, *42nd Regional ACM-ICPC*, Tehran Site, Sharif University of Technology (As Coach).

2017 **23rd Place**, *42nd Regional ACM-ICPC*, Tehran Site, Sharif University of Technology (As Coach).

2014 **1st Place**, *42nd ACM Local Programming Contest*, Isfahan University of Technology.

2015 **3rd Place**, *43rd ACM Local Programming Contest*, Isfahan University of Technology.

2017 **1st Place**, *Khabarfarsi Data Mining Challenge*, Isfahan University of Technology, Partotech Co.

2017 **6th Place**, *Stock Price Prediction Challenge*, Problem.ir.

2017 **105th Place**, *IEEEXtreme 11.0*, among 3342 teams, IEEE.

2016 **109th Place**, *IEEEXtreme 10.0*, among over 2500 teams, IEEE.

2016 **2nd Place**, *1st IOT Cup*, Startup IoT.

2016 **top 2% Place**, *1st Sharif Code Cup*, among over 800 teams, Sharif University of Technology.

2015 **1st Place**, *Capture the Flag (CTF)*, Isfahan University of Technology.

2017 **3rd Place**, *1st UI AI Challenge*, ACM Chapter, University of Isfahan.

2015 **5th Place**, *7th Sharif Java Challenge*, Sharif University of Technology.

2016 **Attended**, *1st Sharif AI Challenge*, On-site round, Sharif University of Technology.

Programming Skills

* Highly skilled items are **Bold**.

Prog Langs	**Python**, **R**, **C++**, **Javascript**, **Bash**, Go, Java
Data Science	**Tensorflow**, **Keras**, **PyTorch**, **Scanpy**, **Numpy**, **Pandas**, **Scikit-learn**, **Matplotlib**, **Seaborn**, **Networkx**, Plotly, GNU Octave, MATLAB
Distributed	PySpark, Hadoop, CUDA
DevOps	**Linux**, **Git**, **Docker**, Kubernetes, Vagrant

Languages

English	Fluent
Persian	Native

Hobbies

Photography, Playing Guitar & Setar
